Request	Issue Domain	Issue Description	Proposed Action
Bug Fix	Backend	Need to integrate with reservation system	Add feature
Bug Fix	Interface	Edit interface does not automatically show time, had to manually modify	Debug edit interface
Bug Fix	Interface	Public option doesn't function correctly	Debug
Bug Fix	Interface	Time allows selction in the past	Debug
Bug Fix	Interface	Switching number of items to show does not work	Debug
Comment	General	Good idea to separate academic search with other functions	
Comment	General	Difficult to look for meetings in general, especially when trying to find a specific meeting. Search difficult to find	Streamline search interface and make it available on all pages.
Comment	General	Integrate with tools to find time for everyone (doodle poll?)	Discuss requirements with client
Comment	General	Reservation system should override user preference	Discuss requirements with client
Comment	General	System should do more things automatically	Identify fields that can be automatically filled
Comment	General	Should be as easy as creating a Facebook event	Compare with facebook event creation interface. Use similar layout to increase intuitiveness of creation interface
Comment	Functionality	Description field was not used	Discuss requirements with client
Comment	Interface	More space should be included between fields	Revise UI feature layout
Comment	Functionality	Would like to invite members	Discuss requirements with client
Comment	Interface	Would like to see results sorted by floor/time	Discuss requirements with client
Comment	Functionality	Would like to be able to share via website directly (more than facebook and link?)	Discuss requirements with client
Comment	Functionality	Would like comments below meeting view	Discuss requirements with client
Update	Interface	Desire to search by time	Add in time filter
Update	Comment	Simple website is good!	Keep general template
Update	Interface	"public" is confusing	Change options to "open to the public" and "closed to the public" and add in description field: "anyone will be able to view your meeting, however we will mark your meeting as 'closed to the public' online"
Update	Interface	Sharing is not clear	Provide share button on all meeting list locations: in search, on front page, in meeting view
Update	Interface	"public" option is not shown on view page	Add UI feature
Update	Interface	Generally: messages are long and users ignore them	Keep concise and important
